3 June 1982

MEMORANDUM FOR: Acting Chief, ACIS
FROM : SA/DCI/IA
SUBJECT : DCI Factbook on START

1. The Director is anxious to have the Factbook on START, which you are putting together. He requests that it include a rundown of our collection systems relevant to verification.

2. We had already discussed including descriptive facts and figures on Soviet systems likely to be the subject of START negotiations, as well as our monitoring judgments. The Director believes that a section on our collection systems will be a useful addition.

3. I would suggest that the new section list the systems by type

25X1

4. Please provide me what you can by 1600 tomorrow, 4 June, so the Director can review it over the weekend. The contents of the Factbook probably will be adjusted several times as we and the Director get a better feel for what will be most useful to him.

5. We should plan to provide copies of the next iteration of the Factbook to the DDCI and DDI. You may wish to inquire whether C/NIC and NIO/SP want copies as well.
